Some Campaigns We've Created

Business Plan Production

Business Plans are first an analysis of a project's chance for success then act as a communication vehicle to interested parties.

- **The Narrative section** details a current or prospective company's plans and strategy: Product details, revenue schemes, marketing, management.

For a prospective company, detail the specific plans for the venture: revenue generation, target markets, expansion plans and marketing.

- **The Financial section** outlines financial history and future years' projections: Income Statement, cash flows, sources & uses of cash etc.

This Essential step includes the main financial statements as well as *detailed, bottom-up approaches* to deriving these numbers.

Business Management

Everyone has visions. Visionaries make theirs come to life through execution of decisions, skills, agility and timing.

- Do you have the right people in place?
- Do you have the right systems?
- Do you have the right Sales materials?
- Do you analyse correctly?
- Do you have the right investment & retirement programs?
- Do you hire and fire effectively?
- Do you have the right compensation / commission programs?
- Do you have the right healthcare and insurance programs?
- Are you planning sufficiently?

Goldart Makes A Difference

LAW FIRM OF HOGAN & ROSSI

General Practice Law Firm

"I have had the pleasure to work with Stuart at Goldart Consulting on two occasions on client cases, and thanks to Stuart's efforts, both ended successfully.

In each, Stuart's skills and perspicacity were essential to achieving our end, defending our mutual client's position, strategically thinking our best path forward. Personally, I was impressed by his ability to understand and assimilate complex legal arguments quickly and suggest potential paths forward to help our case. His financial knowledge of business valuations and ROI calculations were invaluable in achieving our success.

In the future, when I need a business consultant relating to my cases, Stuart will be my first call."

David Simon, Partner, Hogan and Rossi

MARK THOMPSON ACUTHERAPY

Specialized Acupuncture Practice

"Stuart came into our Acupuncture practice like a dynamo, leading the necessary changes to get our sleepy Acupuncture practice to the next level.

He directed the redesign of our website, created a whole new marketing theme, and with it, new sales materials including logos, brochures, sales letters and pamphlets. He overhauled our financial and accounting practices, which brought our focus back to where it needed to be, profitability and cash flow.

When you're not businessmen by nature, like acupuncturists, it's great to have someone like Stuart come in with the knowledge, focus and skills to right the ship and steer it to a brighter future.

Jeffrey Sheehan, L.Ac, M.S. Licensed Acupuncturist
